{ Client's problem }

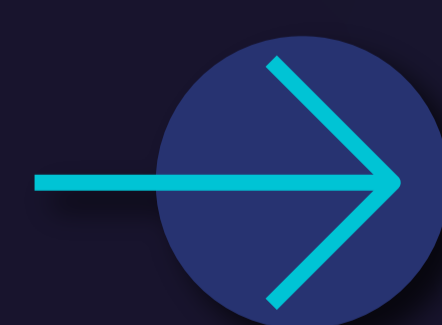

Obtain PCI DSS and PIN DSS certification to comply with the core of their business.

{ Our solution }

Klap is a company that is always at the forefront and with great technological challenges to be aligned with the constant changes in the context, growing competition, technological advances and the increasingly high demands of customers and the business. From INSSIDE we accompanied from all business units providing a comprehensive 360 solution, to achieve compliance with the standard and maintain mature and safe processes.

{ The client's experience }

“From Klap we thank INSSIDE for the accompaniment. The teamwork between both companies has been essential for achieving the PCI DSS and PCI PIN certifications that Klap currently has. INSSIDE has provided us with added value in terms of the operationalization of our processes. INSSIDE is a fundamental part for Klap in order to achieve the proposed strategic objectives and that are framed in being a technologically vanguard company, with robust and safe processes that allow us to enable them to cope with constant changes.”
